BIO: STEVEN OWENS
Chief Executive Officer, Last Drop Wrench

Steven Owens knows machines... Whether it be machining bearings or rebuilding automobiles, Steven is familiar with how to make metal move and how to make it look good.

Steven has a wealth of manufacturing and machining experience having worked with The Timken Company since 2005 where he currently serves as an Engineering Section Manager before becoming the Supervisor of CI Projects and Machine Shop. In addition to his professional duties for Timken, Steven spearheaded, created and now manages the annual Timken's Cruisin' For A Cure, a philanthropic corporate event to help Timken raise funds that go to directly benefit the American Cancer Society.

Owens is also the CEO and Owner of Creative Fabrication and Coatings, LLC. Founded in 2016, Creative Fabrication and Coatings is a South Carolina based specialty powder coating and fabrication company focused on custom coatings for the automotive and personalization market. Steven is also the inventor and owner of the patent pending Last Drop Wrench – a specialty tool allowing users to change oil faster and with less mess in a safer environment. Developed in 2017, the Last Drop Wrench has won several accolades and competitions from Clemson University and has also placed as a top 10 finalist in the 2018 SEMA Launchpad Competition.

He is a member of the Society of Manufacturing Engineers and the Young Entrepreneurs Network.

Steven received his Bachelor of Science in Mechanical Engineering from Clemson University in 2005. He received his Master of Business Administration with an emphasis in Entrepreneurship and Innovation in 2018 from Clemson University.
